

Better Vivarium Management Software ...

... is just one tap away!

Visit us at booth 388

and learn all about
Breeding/Colonies,
Work load/Processes,
IACUC protocols/Compliance,
Samples/Census data
and much more

Gain quality.

Documentation with just a few taps in real-time. All processes are streamlined with the sophisticated LAVAN business logic. Sources for errors are eliminated. Best data quality is achieved.

Gain time.

Save up to 50% of time on performing tasks. This time can be used for higher service quality and higher service levels. This is good for animal welfare, good for your staff, and good to achieve the core mission of your organisation.

Gain a clear perspective.

LAVAN is *the* comprehensive animal facility management software with the animal in focus. All tasks and processes are designed with this in mind. This is intuitive, logic and efficient.

Gain flexibility.

The work of facility managers, scientists and technicians will be much easier with LAVAN. No more paper. More structure. Compliance. Performance. Peace of mind.

Better Vivarium Management Software for you is just one tap away. Discover more on:
